Plenary
Infrastructure

There will be a temporary closure of X Street at LA23 and during that time, motorists will no longer be able to cross over LA23 on X Street between West and East X Street. The temporary closure of X Street is scheduled to start in early 2023 so all four lanes of the new LA23 bridge can be built elevated in this area. In August 2023, the LA23 SB lanes of traffic will be switched to the new bridge. In April 2024 during Phase 3 of construction, X Street will be reopened and improved as it passes under LA23.

**All work is weather permitting.*
